

---

Open Journals is a collection of volunteer-run, open source, open access journals. The flagship Journal of Open Source Software (JOSS) is a developer-friendly journal for research software packages. With a formal peer review process that is designed to improve the quality of the software submitted, JOSS is designed to help researchers developing open source software to receive career credit for their work.

For more information on Open Journals, including our governance structure and project roadmap, please visit:

<http://www.theoj.org/>

## APPLICATIONS

JOSS has a focus on open source research software from any research domain.

JOSE (Journal of Open Source Education) is a venue for publishing computational learning modules and educational software.

The Proceedings of the JuliaCon Conferences publishes proceedings from the annual JuliaCon conferences.

Open Journals is a Sponsored Project of NumFOCUS, a US 501(c)(3) public charity.

NumFOCUS Sponsored Projects rely on the generous support of corporate sponsors, institutional partners, and individual donors.

**NUMFOCUS**  
OPEN CODE = BETTER SCIENCE
